# Alta COW WATCH

Repro, health & welfare

Improve your herd's repro, health & welfare by making informed decisions that impact your herd's profitability.

## Alta COW WATCH

combines an unmatched range of features in a single and highly advanced, yet easy-to-use system.

"On our virgin heifers, week after week after week we're finding a **100% PALPATED PREGNANCY RATE** where every heifer that we're pregnancy checking is pregnant because Alta COW WATCH has already found the open heifers and gotten them rebred. It's been very satisfying for us to adopt this technology. "

Don Niles  
Partner & Dairy  
Operations Manager  
Dairy Dreams; 3000 cows

**“The system impacts our fresh cows a lot.** It helps us figure out cows that have ketosis. We didn’t know until we got the collars, it has actually been a large problem on our farm.

We then are able to look at the cows and treat them earlier on, which prevents them from getting DA. This has been really good and we haven’t lost as many cows. **We want to work towards having healthy cows, getting cows pregnant and the collar system has helped us do that.”**

# Alta CONCEPT PLUS

## THE INDUSTRY'S MOST ACCURATE AND ROBUST SIRE FERTILITY EVALUATION

What Alta CONCEPT PLUS products are available?

**CONCEPT PLUS DxD**  
High fertility sires

**CONCEPT PLUS 511**  
High fertility SexedULTRA™ sires

**CONCEPT PLUS BxD**  
High fertility beef x dairy sires

### What are the details?

The high fertility dairy sires that create more pregnancies to conventional semen when used on dairy cows

The high fertility sexed dairy sires that create more pregnancies to sexed semen when used on dairy heifers

The high fertility beef bulls that create more pregnancies when used on dairy cows

### What are the benefits?

A 2% - 5% conception rate advantage over the average conventional sire

A 3% - 7% conception rate advantage over the average sexed sire

A 2% - 4% conception rate advantage over the average beef sire used on dairy cows

### What additional CONCEPT PLUS traits are available to Alta People?

Conventional semen used on cows

Conventional semen used on heifers

Sexed semen used on cows

Sexed semen used on heifers

THE PROGRESSIVE DAIRY KNOWLEDGE HUB

## COURSES AVAILABLE FOR: dairy owners, managers and employees

### EXPLORING THE DAIRY PROOF SHEET

This brand new interactive course lets you explore every part of the proof sheet.

### REPRODUCTIVE ANATOMY AND PHYSIOLOGY

This interactive training was created to give a better understanding of the reproductive tract, hormones, and the estrous cycle. You will gain a basic understanding of the reproductive cycle that will show how and why the estrous cycle can be manipulated through breeding protocols.

### SEMEN HANDLING PROCEDURES

This course will walk you through the steps of proper semen handling. It begins by going over the proper materials needed to handle semen and concludes with a demonstration of inseminating a cow.

### MATERNITY BASICS

This series of several videos will walk you through the basics of maternity and the calving process. These topics include the following; the maternity pen, repro anatomy of the cow, normal parturition, obstetrical equipment and supplies, presentation of the calf, when to intervene, and more.

### NEWBORN CALVES AND COLOSTRUM

Learn about colostrum and the importance it plays in the lives of newborn calves.

### DAIRYOLOGY: FOR THOSE NEW TO THE INDUSTRY

Develop a basic knowledge of the dairy industry. In this interactive course you will navigate through courses on an overview of the dairy industry, dairy industry scope, facilities, animal health and welfare, the dairy business, and dairy products.
