

Alta Sire Directory

Spring 2022

DAIRY MANAGER SCHOOL

A 2.5-day training to learn new practices
in specific areas of management

LEARN WITH US!

- ▲ Interact directly with the industry's top experts through a mix of classroom and on-farm sessions
- ▲ Explore the newest, research-based ideas of an ever-changing industry in a small class setting
- ▲ Ask the questions related to your farm's situation to gain tangible takeaways

Alta CONCEPT PLUS

Est. 2001

4 Reasons to Trust

the Alta CONCEPT PLUS sire fertility evaluation

32%

breedings in the US that are conventional dairy semen used on cows

Other sire fertility evaluations only measure conventional semen used on cows

That means those evaluations are only relevant to 1/3 of the breedings in the US

5

Number of different Alta CONCEPT PLUS evaluations to account for semen type and where you use it

Conventional dairy semen on cows
Conventional dairy semen on heifers
Sexed semen used on cows
Sexed semen used on heifers
Beef semen used on dairy cows

2001

The year Alta CONCEPT PLUS was first introduced

That means progressive dairies have trusted Alta CONCEPT PLUS to create more pregnancies in their herds for 21 years – that's seven years longer than SCR

2x

How much more accurate Alta CONCEPT PLUS is at predicting the next pregnancy in your herd as compared to SCR

Because Alta CONCEPT PLUS accounts for semen type and where you use it

Work with your Alta advisor and use high fertility CONCEPT PLUS sires to create more pregnancies in your herd.
